Construction progress on the new McKenzie Health System hospital campus as of March 4, 2026.

A New Hospital for Our Community

For more than 50 years, McKenzie Health System has cared for the people of our region.

Now, together with our community, we are building the next chapter.

Construction is underway on a new hospital in Sandusky — designed to support advanced technology, modern patient care, and the growing needs of our community for generations to come.

This project reflects the strength of local healthcare and the commitment of the people who believe exceptional care should always be close to home.

YOUR COMMUNITY • YOUR HEALTHCARE • YOUR FUTURE TO BUILD

Why Our Community Needs This New Hospital

Healthcare continues to evolve, and McKenzie's facility must evolve with it.

While our current hospital has served the community well for decades, aging infrastructure and limited flexibility make it increasingly difficult to support modern healthcare technology and future growth.

The new hospital will allow McKenzie Health System to continue delivering exceptional care close to home for generations to come.

Designed for the Future of Healthcare

- **Modern Patient Rooms** designed for safety, comfort, and healing.
- **Advanced Medical Technology** supporting the latest diagnostic and treatment tools.
- **Expanded Space for Services** allowing McKenzie to grow with the needs of the community.
- **Improved Patient Safety and Privacy** built with modern healthcare standards in mind.
- **Flexible, Adaptable Spaces** designed to evolve with changing healthcare needs.

Why McKenzie

For more than 50 years, McKenzie Health System has been a cornerstone of healthcare in our region.

- Trusted local providers
- Recognized leadership in rural healthcare
- One of the region's largest employers
- Committed to keeping healthcare decisions local

"This new hospital ensures that families in our community will continue to have access to exceptional healthcare close to home for generations to come."

— *Steve Barnett*
CEO & President, McKenzie Health System

A Look Inside the Future of McKenzie

Every space in the new hospital has been thoughtfully designed to support patient comfort, safety, and efficient care:

- **Nursing Station** positioned to support efficient care and patient monitoring.
- **Welcome Desk** for a welcoming and easy-to-navigate entrance experience.
- **Patient Room** designed to support healing, privacy, and family presence.
- **Med/Surg Waiting Room** supporting families during procedures and recovery.
- **Main Waiting Area** designed to be a comfortable space for patients and families.
- **Main Hallway** with wide walkways designed for safety and efficiency.

Built for Our Community's Future

Construction on the new hospital began in 2025 and continues to move forward with exciting progress. Foundations are complete, structural steel is rising, and the vision for the future is taking shape. The new McKenzie hospital is projected to open in Q1 2027, continuing a tradition of exceptional healthcare close to home.

ECONOMIC
IMPACT*

Economic impact data is from FY 2022 (10/1/2021 - 9/30/2022). All other data is from 6/1/2023 - 5/31/2024.

*Economic impact equals direct and indirect wages & salaries plus federal, state, & local tax revenue.

Community Support

While the majority of the project is financed through the USDA Community Facilities Program, community support continues to play an important role in strengthening the future of local healthcare.

Through the McKenzie Health System Foundation, individuals, families, and local businesses are helping support this once-in-a-generation investment in our community.

"It was a real honor to participate in the groundbreaking for this great new hospital. Every time I hear about someone suffering a stroke or heart attack — and surviving and getting back to their normal lives — I'm reminded just how important McKenzie Health System is to our community. It truly makes you stop and think about how many lives have been saved and will be saved by our local hospital and its dedicated and professional personnel."

— Bob Armstrong Community Member
